

STERLING SOCCER
WINTER FUTSAL
 FOOTSKILLS PROGRAM

Powered By Coerver Performance Academy

10,000 Touches in One Winter Program

The Coerver mission is to develop skilled, confident and creative players. Emphasis is placed on individual skill development and our 4 core move sets with the goal of developing confidence on the ball. Core move sets are taught and games are played in a method that starts with no pressure, slowly adds pressure through time/space restrictions, then passive defensive pressure and ends with full defensive pressure to goal. First touch is a major theme in these sessions. Through our skill teaching method, players better their skills, while gaining confidence in themselves with the ball.
